SUMMARY

Flutter Developer with production experience building and shipping Android apps used by 1,500+ users. Experienced in Play Store deployments, API integration, performance optimization, and modern UI development using Flutter (Web+App).

EDUCATION

ABES Engineering College — Ghaziabad, Uttar Pradesh

Bachelor of Technology in Information Technology

Oct 2023 – Oct 2027

EXPERIENCE

Android Developer — **Neuro (Alternative Leadership LLP.)** Sept. 2025 – Jan. 2026

- Built production Flutter modules for Android, improving stability and feature scalability
- Integrated REST APIs with error-handling, improving data reliability and crash rates
- Improved performance by ~25% through optimized rebuilds and state management
- Shipped and maintained the Neuro Android app on Google Play Store, handling production builds, releases, and crash monitoring
- Built Flutter Web admin panels for managing users and app data

PROJECTS

ABESPLUS — **Full-Stack Mobile App for Students (1,500+ Users)**

- Engineered a high-performance Flutter app by **reverse-engineering institutional APIs** to consolidate fragmented academic data into a unified, secure mobile interface.
- Developed a **Predictive Analytics Engine** to calculate "safe-to-miss" classes and optimize holiday planning; utilized `fl_chart` for real-time attendance trend visualization.
- Integrated **Multi-Model AI (Gemini & Groq)** via JS injection.
- Architected background sync using `Workmanager` and `HomeWidget`, delivering live attendance metrics to Android home screens and reducing manual app launches by 60%.
- Designed a responsive **Liquid Glass UI** with 90Hz+ support, featuring offline-first caching and a persistent `WebView` controller to prevent data loss.

SKILLS

Languages/Frameworks	Flutter (Dart), JavaScript, Java, Python
Databases/Backend	Firebase, Supabase, MySQL, REST APIs
Tools	Git, GitHub, Figma, GSAP, Vercel
Specialties	UI/UX Design, Glassmorphism, Animations, OCR
